

## Danger

KAMAUU

All This. Baggage in the luggage  
It's not hard to notice  
Packed so many moments  
Mixed in with the love is enough tears to fill an ocean  
Hope we get emboldened by the fear of wasting moments  
I don't wanna be alone  
It's been hard to stay at home  
And it never felt wrong  
Even when it went wrong

Danger. You fell into my heart again  
You ain't a stranger  
We started off way more than friends  
Danger. You fell into my heart again  
You ain't a stranger  
We met us back where we began

Third times a charm your on my arm  
Shaking into dancing on your palm  
Wrapped around your finger  
And a pond  
In the palm of mine  
Because you're fine  
Chose you as my piece and peace of mine  
Chose you as my piece for keeping time  
Chose you as my time after time  
Frozen

I don't wanna be alone (I don't wanna be alone)  
It's been hard to stay at home (It's been hard)  
And it never felt wrong - (It never, ever, ever)  
Even when it went wrong

Danger (Danger)  
You fell into my heart again. (You Fell)  
You ain't a stranger (Stranger)  
We started off way more than friends  
Danger (Danger)  
You fell into my heart again (You Fell)  
You ain't a stranger (Stranger)  
We met us back where we began
