

## Far Rockaway

KAMAUU

When all  
All of the colors start to change (oooh)  
And fall  
And suddenly it's not the same (oooh)

I go my own way  
You go your own way  
I hope we can make a way  
These kind of things fade away  
I got my own way  
You got your own way  
They seem to be far away  
Farther than Rockaway

Wasn't even fighting on the day to day  
Wasn't even tired so to take a break  
Wasn't on the menu but was on the plate  
I ate it and I hate it I ain't like the taste  
Nasty, all good moments up out of last week  
Keep on coming back to harass me  
You good lover you good lover  
You love like we already blood (uhhuh)  
They say why do fools  
Always chase the person who  
Make them black and blue  
Break my heart don't cut me loose

When all  
All of the colors start to change (oooh)  
And fall  
And suddenly it's not the same (oooh)

I go my own way  
You go your own way  
I hope we can make a way  
These kind of things fade away  
I got my own way  
You got your own way  
They seem to be far away  
Farther than Rockaway
