

There goes my love
Five hundred minutes
'Til I get home
There goes my love
Love when you're in it
And I'm not alone, yeah
There goes my love
There ain't no limit
To holdin' on, mm
There goes my love
We gonna make it
Ten thousand hours
Yeah, mm

Time and time again
I'm tired
You're timeless
Baby
Time and time again
I'm tired
You're timeless
Ten thousand hours

Mm, there goes
We could be, we could be, mm
There goes the future here, w-w-we
There goes the present
Oh, what a presence now
You don't even try, yeah
No matter what
I love you very much
You love me very much
I love you very much
No matter what
I give you my life
No matter what you do
'Cause I bow to you
You are the one
The best of me I could never be
The recipe for the better me
And giving you love

Time and time again
I'm tired
You're timeless
Baby
Time and time again
I'm tired
You're timeless
Ten thousand hours

This world that's so good
But there's no love is so strong
Still, still, still
It's so easy to love you very much
Even in the rush
When everything is rushed

Your slow breathin' in the midst of pain
Shows me how to embrace it
And love it all the same
My love

Time and time again
I'm tired
You're timeless
Baby
Time and time again
I'm tired
You're timeless
Ten thousand hours
