

It's magic baby
My mattress baby
Sleeping on clothes
The fabric baby
Looks tragic maybe
It let's me know
I'm on the ground
I'm on the ground
I'm on the ground
If you are down
If you are down
If you are down
I know you're grounded
Know you're grounded
Know your ground
Can you get down?
Can you get down?
Can you get down?
Yeah

To the spaces (spaces)
In between our faces (faces)
The most beautiful places in the world
Don't waste it (waste it)
I could almost taste it (taste it)
The most beautiful places in the world
In the world
World
In the world
World

Resistance is taunting
I can see you opening
All of yourself to me
I let go of my pride and I lay down with you
I'll take my shoes off
Let the empty spaces be just there
I have no fear of silence
Especially under the moon (moon)
Or under the sun or under the clouds

In the spaces (spaces)
In between our faces (faces)
The most beautiful places in the world
Don't waste it (waste it)
I could almost taste it (taste it)
The most beautiful places in the world
In the world (world)
World (world)
In the world (world)
World (world)

All this gravity float to the moon
Weightless levity pulls me to you
Just enjoy the view

All the spaces (spaces)

In between our faces (faces)
The most beautiful places in the world
Don't waste it (waste it)
I could almost taste it (taste it)
The most beautiful places in the world
In the world (All the shade of the willow)
World (Your shape on the pillow)
In the world (At the top of the Rockies)
World (Way down in your sockies)
