Hold up, hol'up  
Hold my beverage  
My beverage  
I'm hydrated  
I've been waiting  
To impress a witness  
I ain't been outside  
In a month of Sunday's  
Just for this  
I' got dressed for this  
Watch me work  
Heh  
I've got a beast mode  
Originated on the  
East coast  
And elevated  
To the cosmo's  
I've been meditating  
On this  
With my eyes open  
Since I was like 5  
So

I've got skills  
To pay the bills  
To put the meals (mills)  
Up on the table  
I' don't spilled  
Sweat in the field  
And I' done built  
Something fatal

Look at my face  
Do I look  
Like I'm playing  
Do I look  
Like I came this far  
To not go super saiyan

Aagghhh

I've got a billion  
Abilities  
And an affinity  
For diminishing  
My Achilles

I've been tryna  
Stay afloat  
Like tea leaves

While I've been

Concocting Picasso's  
I've got a castles worth  
Of caskets  
Of things that I've  
Killed for the masses  
It's a famine  
And I'm glad that  
I've got mad dishes  
To release

Biimbiie in the cut  
Like a scalpel  
Niggas wasn't  
Giving me enough  
And was doubtful  
Bet my energy could  
Touch every household  
While my enemies stuck  
With they mouth closed  
Pardon my back and  
Pardon my pettiness  
Pardon my wrath  
And pardon my readiness  
Part of my path is parties  
With Ketamine  
But all of ya'll laugh  
That's part of my edginess  
Aye  
Baddies all say I'm a lovable menace

Some counted me out  
But the struggle is finished  
I get a new text  
Every couple of minutes  
She saw that I'm up  
Wanna fuck with a winner  
I'm trippin of shrooms  
I'm trippin off acid  
Rippin cocoons  
You witness the flapping  
Been in the rooms  
And spit with the dragons  
Safe to assume  
That we been the last ones

Look at my face  
It look like a painting  
Certified trapper  
But I look like I'm ancient  
I look like I'm peaceful  
And I look like I'm patient  
But I will smack a nigga  
With the same hands that I prey with  
(Stop playin)
