

# Country Boy's Prayer

Kameron Marlowe

No, I know it ain't Sunday  
And this bench seat ain't no pew  
And I know I've left you hangin' like that cross around my rear  
view  
But these backroads kick up questions  
Like these Bridgestones kick up dirt  
So I had to pull on over and turn this truck into a church

Could you hold back the city from the family farm  
Put some bass in the pond as long as my arm  
Give me one more season with my bird dog Bo  
Some CDB on the radio  
Can you bring everybody overseas back safe  
And one of these years let the boys win state  
Let Grandpa walk through the pearly gates up there  
And if it ain't out of line, could you find a little time for a  
country boy's prayer

I pray corn grows taller than the scarecrow  
And the co-op don't shut down  
It'd be nice to get another year of Daddy's John Deere breaking  
ground  
When you ain't too busy making this world go 'round

And could you hold back the city from the family farm  
Put some bass in the pond as long as my arm  
Give me one more season with my bird dog Bo  
Some CDB on the radio  
Can you bring everybody overseas back safe  
And one of these years let the boys win state  
Let Grandpa walk through the pearly gates up there  
And if it ain't out of line, could you find a little time for a  
country boy's prayer  
Whoa yeah

Yeah, I know we're just a little dot on the map  
But the Good Book says you'll meet me where I'm at

And could you hold back the city from the family farm  
Put some bass in the pond as long as my arm  
Give me one more season with my bird dog Bo  
Some Charlie Daniels on the radio  
Can you bring everybody overseas back safe  
And one of these years let the boys win state  
And let Grandpa walk through the pearly gates up there  
And if it ain't out of line, could you find a little time for a  
country boy's prayer  
Country boy's prayer
