

# Does It Have To Be Over

Kameron Marlowe

Somethin' bout the moon peakin' through these shades  
Dancin' on your skin, shinin' on your face  
I, I can't lie  
I'm wantin' that clock on the wall to slow down  
Prayin' lovin' you will change your mind somehow  
Tonight, yeah tonight  
Does it have to be over

So let your head fall back on my shoulder  
Baby, what's the hurry  
Does it have to be over  
I know you need space, and I need closure  
Come a little closer  
Does it have to be over  
Does it have to be over

What's one more kiss, what's one more night  
What's one more makin' wrong feel so right  
Tonight, what's one more time  
Does it have to be over

So let your head fall back on my shoulder  
Baby, what's the hurry  
Does it have to be over  
I know you need space, and I need closure  
Come a little closer  
Does it have to be over, yeah  
Does it have to be over

We don't have to fight, we don't have to say goodbye  
Does it have to be over

So let your head fall back on my shoulder  
Baby, what's the hurry  
Does it have to be over  
I know you need space, and I need closure  
Come a little closer  
Does it have to be over  
Does it have to be over

Does it have to be over
