

How's the Leaving Going

Kameron Marlowe

Said she needed time to think
That gave me a little time to drink
It ain't easy losing you
I can't move on like you told me to

The hardest part for me is not knowing
Which way the wind is blowing
Tonight, all my cards are showing
How's the leaving going?

Do you think about our old porch swing?
We weren't afraid of anything
But tonight, I'm keeping that whiskey flowing
How's the leaving going?

Did you ever find yourself
Or just move on with someone else?
That's the thing that's killing me
Is he everything that I couldn't be?

So many words we left unspoken
Been up all night, that old rooster's crowing
All I know is my heart's still broken
That's how the leaving's going

Do I ever cross your mind?
I sure miss you all the time
These tears I cry won't stop flowing
How's the leaving going?

Through it all, my heart's still broken
That's how the leaving's going
