

# Long Way Down

Kameron Marlowe

Sittin' in the seat of my old Olds  
Pretty city lights down far below  
Sittin' there soakin' up all of the heat of the fire  
You slide a little closer and whisper in my ear  
Never even get around to openin' them beers  
Bein' here with you girl, nothing could get me no higher

It's a long way down  
Baby, hold on to me  
Never let me touch the ground  
It's a long, long way down  
Yeah, I'm scared I'm gonna fall without your lovin' arms around

Well, love for you is such a natural thing  
You were born to spread those angel wings  
Every time you touch me, swear I feel light as a feather  
But it seems like every other corner I turn  
There's another busted heart that's crashed and burned  
Baby, just remember every time you take me to heaven

It's a long way down  
Baby, hold on to me  
Never let me touch the ground  
It's a long, long way down  
And I'm scared I'm gonna fall without your lovin' arms around

Tell me once again how high we're gonna go  
Take me far away from the world below  
We could be the few that make it all the way together  
'Cause I could start this car and drive back into town  
Land us both safe on solid ground  
But after tonight, girl, you're gonna have to love me forever

It's a long way down  
Hold on to me  
Never let me touch the ground  
It's a long, long way down  
And I'm scared I'm gonna fall without your lovin' arms around

Whoa-oh, whoa-oh  
Mm, yeah  
It's a long way down  
Yeah, it's a long way  
Oh, it's a long way  
Oh yeah  
Hey, it's a long way  
It's a long way, long way down  
It's a long, long way  
It's a long way down, yeah  
Take me higher  
Won't you take me higher  
Won't you take me, take me, take me higher, oh
