

Take You Up On It

Kameron Marlowe

If all you need is someone by your side
An open tab buyin' cold Bud Light
A joke or a smoke or a light
I might take you up on it

Maybe just a dance to a Matchbox song
If you need another number you can save in your phone
Somebody to take you home
I might take you up on it
But I got a feelin' that you're feelin' just a little somethin' more

I'm pickin' up what you're puttin' down
So shoot me straight, we keep dancin' around
Yeah, even though that we know we both want it
So before we let it slip away
Let's get to gettin' out of our own way
If you wanna know how a little sunrise feels
Wakin' up in a house on a hill
I might take you up on it

If you're tellin' me from the moment we met
It was nothin' with your heart, it was all in your head
If that's something that you're willin' to bet
I might take you up on it
Yeah, I'll take you up on it

I'm pickin' up what you're puttin' down
So shoot me straight, we keep dancin' around
Yeah, even though that we know we both want it
So before we let it slip away
Let's get to gettin' out of our own way
If you wanna know how a little sunrise feels
Wakin' up in a house on a hill
I might take you up on it

I'm pickin' up what you're puttin' down
So shoot me straight, we keep dancin' around
Yeah, even though that we know we both want it
So before we let it slip away
Let's get to gettin' out of our own way
If you wanna know how a little sunrise feels
Makin' love in a house on a hill
Yeah, I know somebody who will
Take you up on it
Yeah, take you up on it
