Ecstasy

KAMIJO

I hear your delicious gasping out of your lips
Gimme more ecstasy !

You already know how I'll tease, my precious
Do't dare to touch, that's what turns you on

And all that shivering's rushing up in your system
Knock you off with a feather of my touch

Deep inside I kow your sacred rage's born
Let's begin with a throw of my dice

I might be showing off what I can
It's all secret, a psywar
No more foreplay for your ecstasy
Act in elegance
Scream your head off for my ecstasy

You already know what you'll get, my precious
Don't dare to move, or my poison spreads
And in your numb body feeling nothing but my hands
Knock you off with a feather of my touch

Deep inside, I know your sacred rage's born
(I) Soothe your back and get our fingers entagled
Deep inside, I thurst into you to burn
It all begins with a throw of my dice

I might be showing off what I can
It's all secret, a psywar
No more foreplay for your ecstasy
Act in elegance

I might be showing off what I can
It's all secret, a psywar
No more foreplay for your ecstasy
Act in elegance
Scream your head off for my ecstasy

Gimme more Ecstasy !
