

## No One Like You

Kamil Bednarek

Nobody looks at me like you No-one, I still feel chills but  
i can't stop this  
Nobody makes me high like you No-one, no-one, no-one

We have to stay strong On the way to  
our happiness Surrounded by this madness  
Overflowed by this feeling  
We have to stay strong On the way to  
our happiness Surrounded by this madness  
Overflowed by this feeling  
Hear the music of my soul And remember that  
I wanna be close to you Cause I feel...  
Nobody can touch me the way you do Gently and softly  
This is incredible  
No-one can kiss me like you  
We cannot lose the faith in the truth We've got  
one night in this paradise We have so much to discover  
We don't have to think twice

We have to stay strong On the way to  
our happiness Surrounded by this madness  
Overflowed by this feeling  
Hear the music of my soul And remember that  
I wanna be close to you Cause I feel...  
Nobody can touch me the way you do Gently and softly  
This is incredible  
No-one can kiss me like you  
We cannot lose the faith in the truth We've got  
one night in this paradise We have so much to discover  
We don't have to think twice  
There are no lies one night in this paradise  
This is like a purification  
from the bad vibes  
Let's follow the guiding lights While we have the truth on our  
side  
Hear the music of my soul And remember that I wanna  
to be close to you Because I feel, yes I feel  
powerful energy Only you and me!,  
' I want to shout out!! i' This beautiful word!  
LOVE... LOVE...
