

# Thinkin Twice

Kamil Bednarek

I don't wanna think about it twice  
I wanna chase your every little fear  
To another place  
I don't wanna think about it twice  
I wanna take your love  
To another phase

Me can't stop dat  
Hits like a roaring Ferrari Testarossa  
Inna di tough my money  
You're the one of real truth ina world of lies  
Lost in the babilon darkness me see your light  
Nuffa gun dem, nuffa gun dem  
And we nah suffer like dem  
We nah rotten like dem  
Nuffa gun dem, nuffa gun dem  
We nah criticize  
Coz dey think we are dumber than dem

I don't wanna think about it twice  
I wanna chase your every little fear  
To another place  
I don't wanna think about it twice  
I wanna take your love  
To another phase

No more thinking twice  
Unconditional love is once ina life  
Come on, sit this side  
Look at the fire burning in my eyes  
Say again  
No more thinking twice  
Unconditional love is once ina life  
Come on, sit this side  
Look at the fire burning in my eyes

I don't wanna think about it twice  
I wanna chase your every little fear  
To another place  
I don't wanna think about it twice  
I wanna take your love  
To another phase

Turn down the light  
I wanna feel your fire  
Take me high  
Higher and higher

Hold me tight  
Show me your desire  
Nothing else matter  
One love  
One love works

I don't wanna think about it twice  
I wanna chase your every little fear  
To another place

I don't wanna think about it twice  
I wanna take your love  
To another phase
