

Fight

KAMRAD

We went across the line
Starting to divide
We might fall apart
But we'll get closer again

Come on just take your time
I'll be by your side
Whenever you want to go on

I'm waiting, I'm taking it all
We're breaking
But we can save it now

I'm waiting for you
I'm counting on you
Cause I wanna fight for our love
Yeah, we gotta fight for our love

I'm waiting for you
I'm counting on you
Cause I wanna fight for our love
We gotta fight for our love
I'm waiting for you
I'm counting on you
Cause I wanna fight for our love
We gotta fight for our love

We gotta keep in mind
What we sacrificed
We might fall out of love
But we can be one once again

Let's give it a try
We can find a light
Wherever we're going

I'm waiting, I'm taking it all
It's aching
But we can save it somehow

I'm waiting for you
I'm counting on you
Cause I wanna fight for our love
Yeah, we gotta fight for our love
I'm waiting for you
I'm counting on you
Cause I wanna fight for our love
We gotta fight for our love

We fell in love and now we fall out
But I'm fighting, we gotta fight for love
We flew up and now we come down
But I'm fighting, we gotta fight for love
And I won't stop unless we give it a try
And I'll go on...

... waiting for you

Counting on you
Cause I wanna fight for our love
We gotta fight for our love

I'm waiting for you
I'm counting on you
Cause I wanna fight for our love
We gotta fight for our love
I'm waiting for you
I'm counting on you
Cause I wanna fight for our love
(I wanna fight for our love)
We gotta fight for our love
I'm waiting for you
(I'm waiting for you and I'm counting on you now)
Cause I wanna fight for our love
We gotta fight for our love
