

# Friends

KAMRAD

I got my friends  
They'll never let me down  
I want them by my side  
Forever

Never have I ever  
Thought that you could hurt my feelings  
And never have I ever  
Thought that you could stoop so low  
Never have I ever  
Thought that you would be so mean  
And then leave without a reason  
Now I know, oh

Never have I ever  
Seen somebody act so shady  
And never have I ever  
Had a breakup on the phone  
But baby have you ever thought  
That you're the one who's crazy?  
Cause I will not be lonely  
No, I will not be lonely, no

I got my friends  
They'll never let me down  
I want them by my side  
Forever  
I got my friends  
They'll always be around  
That's why  
I don't need you  
Whatever

I got my friends  
They'll never let me down  
I want them by my side  
Forever  
I got my friends  
They'll always be around  
That's why  
I don't need you

Never have I ever  
Been a sucker for your drama  
Cause baby for a heartache  
You would have to have a heart  
I don't believe a single word  
You told me about karma  
Cause since you're gone  
My life is not that hard, no

Don't care if you hate me  
Cause I've been happy lately  
You're the one who played me  
You're the one who's lonely  
Don't care if you hate me  
Cause I've been happy lately

You're the one who played me  
You're the one who's lonely

I got my friends  
They'll never let me down  
I want them by my side  
Forever  
I got my friends  
They'll always be around  
That's why  
I don't need you  
Whatever

I got my friends  
They'll never let me down  
I want them by my side  
Forever  
I got my friends  
They'll always be around  
That's why  
I don't need you  
(Whatever)

Don't care if you hate me  
Cause I've been happy lately  
You're the one who played me  
You're the one who's lonely  
Don't care if you hate me  
Cause I've been happy lately  
You're the one who played me  
You're the one who's lonely

I got my friends  
They'll never let me down  
I want them by my side  
Forever
