

Head Down

KAMRAD

It's one of those days again
I overthink it all until it hurts
My doubts are raging and
I almost feel like giving up

One of those nights again
I fear it's going so wrong
But you make me try it again now

Whenever I fell hard
You were there to pick me up
Whenever I feel stuck
You help me figure it out
Whatever I may ask
You've got the only answer I need
(That I need, that I need)

Your love, your love, your love
You got me, you got me like
Nah nah nah nah
Your touch, your heart, your love
You got me, you shut my head
Down, down, down
Your love, your love, your love
You got me
All I think about is
Nah nah nah nah
Your love, your love, your love
You got me
Come shut my head
Down, down, down

Your love, your love
Your love, your love

It's one of those days again
I overthink it all until it hurts
My mind is aching and
I don't how to make it stop

One of those nights again
I fear it's going so wrong
But you make it right again now

Whenever I fell hard
You were there to pick me up
Whenever I feel stuck
You help me figure it out
Whatever I may ask
You've got the only answer I need
(That I need, that I need)

Your love, your love, your love
You got me, you got me like
Nah nah nah nah
Your touch, your heart, your love
You got me, you shut my head

Down, down, down
Your love, your love, your love
You got me
All I think about is
Nah nah nah nah
Your love, your love, your love
You got me
Come shut my head
Down, down, down

Your love, your love
Your love, your love

I know it, I know it
You got me like
Nah nah nah nah nah
Oh can't help it, I can't help it
You got me like
You shut my head
Down, down, down
You got me like
You got me like
You got me like
(You got me like)

Your love, your love
Your love, your love
Your love, your love
Your love, your love

Your love, your love, your love
You got me, you got me like
Nah nah nah nah
Your touch, your heart, your love
You got me, you shut my head
Down, down, down
Your love, your love, your love
You got me
All I think about is
Nah nah nah nah
Your love, your love, your love
You got me
Come shut my head
Down, down, down
