

Heartbeat

KAMRAD

You make me forget
All the weight I got on my back
With every heartbeat
Save me from the past
Let me catch up with every breath

Broken pieces
Cut my hands
But I picked them all up
All those demons
Kept hunting me down

Bullets tried to hit me
But you helped me ricochet
And there is no one else who treats me
This way, this way

Yeah
You make me forget
All the weight I got on my back
With every heartbeat
Save me from the past
Let me catch up with every breath
With every heartbeat

You make me forget
All the weight I got on my back
With every heartbeat
Save me from the past
Let me catch up with every breath
With every heartbeat

Brand new feeling
Setting me free baby
It's killing every doubt
And you're the reason
You got me back on my feet baby
(Back on my feet baby)

Bullets tried to hit me
But you helped me ricochet
And there is no one else who treats me
This way, this way

Yeah
You make me forget
All the weight I got on my back
With every heartbeat
Save me from the past
Let me catch up with every breath
With every heartbeat

Ooh
Ooh
With every heartbeat
Ooh
Ooh

With every heartbeat

Bullets tried to hit me
But you helped me ricochet
And there is no one else who treats me
This way, this way
Bullets tried to hit me
But you helped me ricochet
And there is no one else who treats me
This way, this way

Yeah
You make me forget
All the weight I got on my back (now)
With every heartbeat
Save me from the past
Let me catch up with every breath
With every heartbeat (yeah)

Ooh
(Oh yeah)
Ooh
With every heartbeat
Ooh
Let me catch up with every breath
With every heartbeat
