

Help You Out

KAMRAD

There are bitter pills to swallow
If we split them you will see
They won't break us down oh no
You mustn't drown in sorrow
I'm right here, I still believe
That we gotta go on

I feel it's right
We must chase these heights
We can get wherever we like
And you know that's why
You ain't gotta cry
Come on and keep your head up high

Uhh
I'm gonna help you out
I'm gonna help you out
Uhh
We'll never be apart
We'll never be apart

Remember where we come from
All these stories and our dreams
They can't steal them now oh no
I know the road seems so long
We'll walk hand in hand, you'll see
We'll never lose what we once found

I feel it's right
We must chase these heights
We can get wherever we like
And you know that's why
You ain't gotta cry
Come on and keep your head up high

Uhh
I'm gonna help you out
I'm gonna help you out
Uhh
We'll never be apart
We'll never be apart

The love that you give me
Is all that I need babe now
Right now
The love that you give me
Is all that I need babe now
Right now

Don't lose yourself in your fear
Our love is all that we need
It's alright
It's alright
Don't lose yourself in your fear
Our love is all that we need
It's alright
It's alright

Uhh
I'm gonna help you out
I'm gonna help you out

Uhh
I'm gonna help you out
I'm gonna help you out
Uhh
We'll never be apart
We'll never be apart

The love that you give me
Is all that I need babe now
Right now
The love that you give me
Is all that I need babe now
Right now

Uhh
Come on and help me out
Come on and help me out
