

# Ain't No Stopping Us Now

Kane Brown

We'll be road trippin' rollin' with the top down, southbound  
Little bikinis and white sand

I can't sleep, gotta leave  
The summer sun starting to peek through my window, letting me know  
Time's up, it's time that we go  
Got a lead foot waiting and a pocket full of cash  
Cooler full of beer and a little sun stash  
In the back of the car, so relax there ain't a beach to far

We'll be road trippin' rollin' with the top down, southbound  
Little bikinis and white sand (hell yeah)  
In a tank top gonna let the guns out, all about rockin' that farmers tan  
Got the Chev going 70, all the girls looking heavenly  
but ya, kick back and chill out ahead of me  
Getting wild, raising hell, and leaving this town  
Like there ain't no stopping us now

No tellin', no tellin'  
But them lips taste like watermelon  
Got a daiquiri kiss, I count when it hits  
Makes you wanna get going there  
Wherever that is

We'll be road trippin' rollin' with the top down, southbound  
Little bikinis and white sand  
In a tank top gonna let the guns out, all about rockin' that farmers tan  
Got the Chev going 70, all the girls looking heavenly  
but ya, kick back and chill out ahead of me  
Getting wild, raising hell, and leaving this town  
Like there ain't no stopping us now
