

Beside Me

Kane Brown

You take me up to the moon when you kiss me goodnight
You turn a gray sky blue when I look in your eyes
Holding hands, writing names in the sand
When the tide comes, I'll write it again

Oh, baby ooh
What would I do?
Yeah, what would I do?

If we'da never met, heaven knows where I'd be
Girl, you got it all, there ain't nothing that I need
Besides you beside me
Every single breath that you take you remind me
I don't want a thing, I don't want nobody
Besides you beside me

You're like a summer rain kissing on my skin
After a long hot day, girl, I just dive right in
Just like May does to June, just like one does to two
You're all I wanna be next to

If we'da never met, heaven knows where I'd be
Girl, you got it all, there ain't nothing that I need
Besides you beside me
Every single breath that you take you remind me
I don't want a thing, I don't want nobody
Besides you beside me

Oh, baby ooh
What would I do?
Yeah, what would I do?

If we'da never met, heaven knows where I'd be
Girl, you got it all, there ain't nothing that I need
Besides you beside me
Every single breath that you take you remind me
I don't want a thing, I don't want nobody
Besides you beside me

Oh, baby ooh
Besides you beside me
Oh, baby ooh
Besides you beside me
