

# Comeback

Kane Brown

Six months passed since we both said goodbye  
Never thought that I'd run into you here tonight  
And I can't ever think your smile's the same as it was  
Back when I saw you every day  
I probably shouldn't say it  
What I'm about to say

We could make a comeback if you come back  
We were on top of the world people wanted what we had  
We could have it again don't you know that  
We could make a comeback if you come back

You haven't stopped me yet so I guess I'll keep going on  
Oh, and I haven't even deleted your number from my phone  
I've been wanting to call you every single day  
But I couldn't think how to rephrase everything  
So just tell me, babe  
If you feel the same way

We could make a comeback if you come back  
We were on top of the world people wanted what we had  
We could have it again don't you know that  
We could make a comeback if you come back  
We could make a comeback if you just come back  
We could make a comeback if you come back  
We were on top of the world people wanted what we had  
We could have it again don't you know that  
We could make a comeback if you come back

Six months passed since we both said goodbye
