

# Go Around

Kane Brown

Yeah, we're five hours, four shots and three beers gone  
No telling what the time is  
It stopped right when you walked in  
I can tell somebody else must've done you wrong  
'Cause you're trying not to lean in, but you're looking in my eyes  
Maybe we're drunk and maybe it's late  
But if you ask me then, baby, I'd say

We could be a story 'bout love in a bar  
Or a "What If's" song on an old guitar  
You ain't gotta worry 'bout showing them cards  
'Cause I ain't in the business of breaking hearts

So give me a go around  
There's something going down  
If you don't know it by now, you're 'bout to figure out  
Girl, I'm the kinda guy, hell-bent on changing your mind  
Don't mind me taking your time  
What better time than now?  
Just give me a go around, 'round, 'round, 'round  
Just give me a go around, 'round, 'round, 'round

Yeah, I get it  
You can't just fall  
You learned the hard way too many times  
So you built you up some walls  
Yeah, I've seen it  
But I'm pretty damn sure  
I could be that missing piece that you've been looking for

We could be a story 'bout love in a bar  
Or a "What if's" song on an old guitar  
You ain't gotta worry 'bout showing them cards  
'Cause I ain't in the business of breaking hearts

So give me a go around  
There's something going down  
If you don't know it by now, you're 'bout to figure out  
Girl, I'm the kinda guy, hell-bent on changing your mind  
Don't mind me taking your time  
What better time than now?  
Just give me a go around, 'round, 'round, 'round  
Just give me a go around, 'round, 'round, 'round  
Give me a go around

Just give me a go around  
There's something going down  
If you don't know it by now, you're 'bout to figure out  
Girl, I'm the kinda guy, hell-bent on changing your mind  
Don't mind me taking your time  
What better time than now?  
Just give me a go around, 'round, 'round, 'round  
Just give me a go around, 'round, 'round, 'round  
Just give me a go around, 'round, 'round, 'round  
Just give me a go around, 'round, 'round, 'round
