

# Hit the Gas

Kane Brown

The first day we met I was 17  
The sky was shining bright  
And the grass was green  
You had your hair up  
A smile on your face  
I'll never forget that day

You walked up to me and  
Asked for a ride  
I had a buddy in the front  
So I pushed him aside  
Put your seatbelt on  
Throw your feet on the dash  
Said boy please try not to crash  
Then I winked back said baby  
Don't you trust me?

Then I hit the gas  
I just wanna go fast  
I want this feeling to last  
So I hit the gas  
If you wanna go back  
Baby its too late for that  
I hit the gas

We pulled in about 10 past 12  
I dropped you off  
Ya daddy gave me hell  
You threw your hands up  
Gave me a grin  
You jumped back in  
Said lets do it again

Then I hit the gas  
I just wanna go fast  
I want this feeling to last  
So I hit the gas  
If you wanna go back  
Baby its too late for that  
I hit the gas

I know you're just a small town girl  
Just give me a chance and I'll show  
You the world  
So come on baby  
Mmmmmmm  
I just wanna go fast  
So I hit the gas
