

# Live Forever

Kane Brown

Life was just breathin' in and out  
Like a movie with the sound turned down  
It felt nothin' like I feel right now  
You said hello and set the room on fire  
Like technicolor in a jet black night  
Suddenly the skies never been so clear  
Hey whatchu doin' in a thousand years?

If life's, just, wakin' up to  
Another day of lookin' at you  
If all we get is just to be together  
It makes me wanna, live forever  
You make me wanna, live forever

You tell yourself that you'll never grow old  
Till you find a hand you were meant to hold  
Now I'll never want to see you one last time  
I'll never wanna know a kiss goodbye

If life's, just, wakin' up to  
Another day of lookin' at you  
If all we get is just to be together  
It makes me wanna, live forever  
You make me wanna, live forever

If life's, just, more the same  
Makin' you smile sayin' your name  
If all we get is just to be together  
You make me wanna, live forever

If life's, just, wakin' up to  
Another day of lookin' at you  
If all we get is just to be together  
It makes me wanna, live forever  
You make me wanna, live forever  
You make me wanna, live forever  
(You make me wanna)  
Live forever
