

# Rockstars

Kane Brown

We take a drive just to sing along  
Every word of them Rolling Stones  
Stacy's mom had it going on  
Lived three doors down I can see her now  
Her daughter had a heart that was wild and free  
If you blink-182 then you'd miss me and her  
Every verse had a story  
Yeah, them pocket lighter nights lit up our days of glory

Back when the air guitars were the only sound  
And you'd strum the chords and I'd put the pedal down  
Two-man dashboard band rollin' through this town  
Had that rearview shakin' to the kickdrum beat  
Leaning West Coast deep in the bucket seats  
All I ever wanted was right there in that car  
Back when we were rockstars  
(Yeah, we were runnin' all night, chasing down a dream, howling at the moon,  
baby, you and me)  
Back when we were rockstars  
(Yeah, we were runnin' all night, chasing down a dream, howling at the moon,  
baby, you and me)

Nothin' like freedom two windows down  
You singin' along still hear it now  
Way too loud and sometimes off key  
But you sounded just like an angel to me  
You'd make fun of how I threw my head  
Threw my fingers up in the air  
Thought I was Kurt Cobain or Jimmy Page  
You were side seat center stage

Back when the air guitars were the only sound  
And you'd strum the chords and I'd put the pedal down  
Two-man dashboard band rollin' through this town  
Had that rearview shakin' to the kickdrum beat  
Leaning West Coast deep in the bucket seats  
All I ever wanted was right there in that car  
Back when we were rockstars  
Back when we were rockstars

We never ended up on MTV  
Or heard our voices on a CD  
But in your eyes and in my arms  
We were each other's rockstar

Back when the air guitars were the only sound  
And you'd strum the chords and I'd put the pedal down  
Two-man dashboard band rollin' through this town  
Had that rearview shakin' to the kickdrum beat  
Leaning West Coast deep in the bucket seats  
All I ever wanted was right there in that car  
Back when we were rockstars  
(Yeah, we were runnin' all night, chasing down a dream, howling at the moon,  
baby, you and me)  
Yeah, back when we were rockstars  
(Yeah, we were runnin' all night, chasing down a dream, howling at the moon,  
baby, you and me)

Back when we were rockstars

(Yeah, we were runnin' all night, chasing down a dream, howling at the moon,  
baby, you and me)

You and me were rockstars

(Yeah, we were runnin' all night, chasing down a dream, howling at the moon,  
baby, you and me)

Oh yeah

Yeah, we were runnin' all night

Chasing down a dream

Howling at the moon

Baby, you and me
