

Start a Fire

Kane Brown

Girl, the anger in your eyes
Is throwing embers in the air
Smoke's rising to the sky
If I get burned, no, I don't care
Yeah, girl, I know we're down to the wire
But I wanna see that flame get higher and higher

Let's strike a match
Let's burn it down
In every room
Inside this house
Let's throw some gas on a night right now
Let's start a fire
We can't put out

Give my heart that third degree
Leave me lyin' in the ash
Keep me in this misery
If tonight's gon' be our last

Let's strike a match
Let's burn it down
In every room
Inside this house
Let's throw some gas on a night right now
Let's start a fire
We can't put out

Yeah, girl, I know we're down to the wire
But I wanna see that flame get higher and higher

Let's strike a match
Let's burn it down
In every room
Inside this house

Let's strike a match
Let's burn it down
In every room
Inside this house
Let's throw some gas on a night right now
Let's start a fire
We can't put out
