

Goneski

Kane Strang

In marched in the night
Watched it give the day an awful fright

And wondered how much did
Your true self weigh today
'Cause I talked to a clone with your bones
While you were miles away
Are you here, here with me?
Or are you goneski?

Left, right, left, right
In marched the night
Watched it give the day an awful fright
Watched, watched it take the day for all its might

And wondered how much did
Your true self weigh today
'Cause I talked to a clone with your bones
While you were miles away
Are you here, here with me?
Or are you goneski?

Are you here with me?
Are you here with me?
Or are you long goneski?
