

## Lagoons

Kane Strang

You were by the lake and I was in the hotel  
You weren't doing great and I'm not doing so well  
If your heart is a dog then my head is a firework  
And this will take too long  
And you won't wait that long  
You won't wait that long

Have you met my brother  
I know he looks like, think he looks like  
Know he looks like his mother  
And now that I'm here, here talking to you  
I thought of things we used to do  
And we don't know each other well, each other well  
But I think you would get along

I was in the bed, you were on the outskirts  
I was in my head and you were very, very hurt  
Two synchronised swimmers swimming in gloomy lagoons  
And you will go away  
And it will be too soon  
It will be too soon

Have you met my brother  
I know he looks like, think he looks like  
Know he looks like his mother  
And now that I'm here, here talking to you  
I thought of things we used to do  
And we don't know each other well, each other well  
But I think you would get along

If your heart is a dog then my head is a firework  
And this will take too long  
And you won't wait that long
