

# UPLIFT

Kang Daniel

Hold me close, we're not afraid  
Every step we take is louder than the storms that fade  
Take me where the sky divides  
Every breath is rising stronger till we're out of time

So lift me higher, higher, don't let go  
Keep running faster, faster, feel the flow  
Carry me higher, higher, through the night  
Light it up, the fire, fire to the sky  
To the sky

Feel the rush, it's in our veins  
Every heartbeat's turning thunder in the pouring rain (Oh-  
oh, oh-oh)  
Every breath becomes a wave  
Pulling further out where the night begins to break (Oh)

Just lift me higher, higher, don't let go  
Keep running faster, faster, feel the flow  
Carry me higher, higher, through the night  
Light it up, the fire, fire to the sky  
To the sky
