

Coupe

Kano

Few years from now I'll be riding that Coupe
Switching on all of these lanes and riding that Coupe
Few years from now I'll be riding that Coupe
Switching on all of these lanes while I'm just riding that Coupe
Riding that Coupe
Man I'll be riding that Coupe
Put my hand up and show them I'm telling the truth
Riding that Coupe
Man I'll be riding that Coupe
And probably just swerve or something coz I'll be turning left on that curve
or something

Riding that Coupe, keep getting dreams of myself with an Bentley and spinning
that whip
Yeah that's the truth
Had to go tell em to stay on the loop
Ey I should never listen to these critics who keep telling me
That I will never Make It coz I'm tired of having that Conversation
Lemme fucken show them that they're so Mistaken
Stop sleeping and be Awaken
KANO is the fucken King
Told my mama that Ima buy a whip
I just find it funny how she found it funny
When I finished eating on that sushi I just start chilling and rub my tummy
Kiss my ass If you still behind me
If you don't hustle you a lazy Dummy
I don't chase Hoes I only chase Money
That's one thing, you need to know bout me
I know One Day I'll get paid I mean
My talent will never get taken from me and I don't give a fuck wad they say
bout me
They don't really know wad I've been Thru
Things that happened in my Life made me see that can and I'm strong when I n
eed to
Yeah this is my lifestyle
I think that deserve a fucken High five
As I'm looking at my timeline
Says I'm too creative for a 9-5

Few years from now I'll be riding that Coupe
Switching on all of these lanes and riding that Coupe
Few years from now I'll be riding that Coupe
Switching on all of these lanes and while I'm just riding that Coupe
Riding that Coupe
Man I'll be riding that Coupe
Put my hand up and show them I'm telling the truth
Riding that Coupe
Man I'll be riding that Coupe
And probably just swerve or something coz I'll be turning left on that curve
or something

See my aim is to take over the Game homie
Mama bought her whip and she put my name on it
Talking bout Bubu M
They were like Im the Man
But when I buy mine ill just put it out on Instagram
Feel the Power Feel the pressure

Every question has an Answer
So don't wonder why I take chances desperate times call for desperate measures
I got Hit coming on the way you should listen and call them Anthems
And stop throwing these silly Tantrums
I'll make you disappear like a fvcken Phantom
Check my vibe it'll say I'm too Lit
I don't have to trip unless I have to full split
You know lame so stop acting like a cool kid
Talk is cheap don't say it man you can't prove it
I'll be riding in my fucken Whip while you nikkas still ask for lifts
I'll be riding in my fucken whip while you nikkas still ask for lifts
