

## Jets Overhead

Kansas

Jets fly overhead  
And I can't hear a word you say  
I've never seen a look so serious  
Painted on your face  
Take my hand  
Spell it out in terms  
That mere mortals understand  
Before you fly away  
Lead me to shelter  
Tell me about their plan  
I'll be waiting right here when you land

Jets fly overhead  
Time to get it off my chest  
One last shot at our redemption  
Will we pass the test?  
Then you say  
This ain't about me  
But everyone I've ever known  
There's more than we've been shown  
The stakes are much higher  
In ways I can't understand  
I'll be waiting right here when you land

I'll accept our fate  
Go turn off the light  
I only hope I showed the best of us  
And that you won't lose sight  
You were only here  
To see if we're worthy  
To those that you answer to  
Just another fool  
Crossing my fingers  
Wondering what you said  
When the jets are flying overhead  
When the jets are flying overhead
