

## Do It

Kanye West

Do it stay waxed?  
Do it smell fresh?  
Can I feel your juice through the latex?  
If you go 'round and you stay wet  
Can your homegirl watch? Can she go next?  
Need the lights on, tell her watch this  
When I make you cream, I'ma talk shit (I just wanna know)  
And you fuck back, and you got grip  
Stick your tongue out when you get your spot hit  
I just wanna know

All this money on the floor  
Ten racks, throw it up, watch how I do it  
Make her drop to her toes  
Bend it over, pick it up real slow, I  
Do it baby, do it  
Up that work, I snuck in the jacuzzi  
In my bag, call me '06 Gucci  
What's happenin'? Tryna make a movie?

Just touched down, feelin' like Luchi  
Fuckin' on Teecha, fuckin' on Suzi  
Don't discriminate with this uzi  
She just wanna drink, do a little toosie  
Beat it all day, beat it all night  
I be on gorilla, goin' Kimbo Slice  
I be with the killers, need to pay your fines  
Try me once, you gon' pay with your life  
All these dimes on me  
What's your set? Bitch, throw it up  
Heard you got a man, but he ain't like us  
Your bitty bands ain't doin' enough  
Know it's all on me  
This might make you fall in love  
Tellin' your friends you found the one  
And I'm like "Who?", and I'm like "What?"

All this money on the floor  
Ten racks, throw it up, watch how I do it  
Make it drop to her toes  
Bend it over, pick it up real slow, I  
Do it baby, do it  
Up that work, I snuck in the jacuzzi  
In my bag, call me '06 Gucci  
What's happenin'? Tryna make a movie?
