

# MAINTENANCE

Kanye West

I know your maintenance so high, high  
High, high, sky high  
And that rent is sky high  
Penthouse suite, sky high, sky high  
Tell 'em

I don't got a price  
I don't got a price tag  
I just tried out a nice bag  
God just threw me a life raft  
I've been living my life fast  
Step in the moment, you right at  
You not alone, you right back  
Had to teach you how to fight back  
Everybody not gon' like that  
Overstaying where your life at  
Get some real friends in your life back  
People was givin' advice bad  
Tell 'em to take that advice back  
Throw it away with they iPad  
Broke a few bones on assignment  
But you came home with a signed cast  
Everything heals when the time pass

A moment in time  
This is just a moment in time

I know your maintenance so high, high  
High, high, sky high  
And that rent is sky high  
Penthouse suite, sky high, sky high  
I know your maintenance so high, high  
High, high, sky high  
And that rent is sky high  
Penthouse suite, sky high, sky high
