

Selfish

Kanye West

I gotta put me first
I gotta put me first
I gotta put me first, Lucious
I understand that, and I promise you—

Selfish, I just want you all to my own
These—these days, won't leave me alone
Damaged by the fact I'm alone

I put me first
I put me first, Lucian
What was it worth?
What was it worth in the end?
It was just a purse
It was just a purse, then again
I never seen a purse
Get took as personal as this
Don't make it worse
Don't make it worse than what it is
I spent a church
I spent a church on a Benz
I lost my shirt
Least now we playing shirts and skins
Shift to reverse
And then you skrrt off again
Lewinsky, treat me like the President
Don't look at me like I need medicine
Don't care what you heard
Don't care what you heard, CNN
Even friends got a E-N-D at the end

Selfish, I just want you all to my own
These—these days, won't leave me alone
Damaged by the fact I'm alone
Selfish, I just want you all to my own
These bitches won't leave me alone
Damaged by the fact I'm alone
