You can freeze  
Catch a seize by me  
NYPD on me since my PJ part the seas by me  
Y'all been soft like ED  
Talkin' all hard for what?  
Y'all seen my army  
Couple condos on me  
I done bought your block for sleepin' on me  
How you rest your head when your rent is due to me?  
That's silly  
Tired of counting millis  
Lil bitch, I been the goat 'bout billis  
Y'all shit sound vanilly  
I'm in Costa Rica shuckin' coco  
Signin' titties

Rich off words, no pro bono  
I'm a les' for the cat, that's no-no  
I just beat the odds for sure, though  
Knocking' doors down 'til they're waving like 44  
They was against me  
No one's friendly when you ditch your passion  
Victim-jacking  
I got rich and they all appeared  
As if it's now I need the backing  
Rich get richer  
Figured y'all knew that  
My crew where the loot at  
No luck it ain't Buddha  
Made it through the hardest  
Now I'm Gouda  
Cheddar, I'm jacking and in the pursuit of  
Happiness, like, what the fuck that is?  
I'd be kicked to the curb without status  
Quit the capping  
Dapping me up and you hate under captions  
I think I could do without the parties  
Bitch, I'll throw my own  
Need the crown, the throne, and more  
Show me your king  
They're overthrown  
I could do all again  
Shit, I still got ways to go  
Dough don't make you rich from poor  
It's what inside you can't ignore

I just copped a thotty  
Brand new body but she got her mileage  
Double Gs, I'm pricy  
Gucci links, yeah, my neck so icy  
We been dodging jakes in the projects like they're paparazzi  
I ain't got no brakes, autopilot  
Tell me, who gon' stop me?  
I just took his bitch, oh well  
Hit her in Coco Chanel  
Sent some birds out to the Beamer  
One-hand catch 'em, like Odell  
I go crazy up in Dior  
Told 'em, "Come to my hotel."  
Who put them batteries in his back?  
Now that boy dead like Duracells  
All of these VVs, I might freeze  
I need ten at least  
My price just increase like Ronaldo with the Real Madrid  
Got a bitch from Broward, goes to Howard  
She be staying clean  
Icy whites, I wear 'em once  
I hate whenever they get creased

Fuckin' with me, better freeze and desist  
'Cause me, I'm the reason I even exist  
Got a team full of chips straight squeezing the clip  
In the court room, keys, and pleading the Fifth  
Got a beam on a stick, we can turn it to a light show  
You should probably get some insurance like Geico  
Got a lot of secrets inside only I know  
I wrote this in a blindfold with my eyes closed  
Hold up, hold up, hold up  
Run the game with no controller  
This that 2008 Wayne straight up out the NOLA  
All I know is I'ma keep this shit a bean, no Soya  
Oh boy, I know I'm giving all these rappers paranoia

If they really got a problem with it, then fuck you  
I been doing this since 2012  
Cup real muddy but I promise it ain't just juice  
Me and Just Juice in the Wraith when we come through  
Anybody fuckin' with the team, I broom shit  
Ruthless, I been on point like a pool stick  
Had to get my ears fixed, heard all your new shit  
You only feel some type of way 'cause the shoe fits
