

# Like El Chapo

Kap G

I got vato's break it down like a chapo  
I might go to Mexico like a chopo  
I'll be up the gush smell like a chop  
Baby try to catch me like a chapo  
El Chapo [x6]

My vatos dancing with army hammer like MC hammer [x2]  
Cruisin' in their black and white gociate  
That's Danny Fennal

I'm smoking like chemmi, I feel just like Senax  
My girl she's so bad, I swear taking the stando  
Your girl she's so thirsty, remind me your camo  
She catch the feelings  
Don't be stress on like pendo  
Migo gettin' rich like I'm landing  
Flyin' to Turkey  
Talking by gobble, gobble gobble  
And my vato got the verse, singing on like I know  
Gettin' ahead sleeping halo  
Getting money that a model  
Hunt you like a punch and if you wanna go and better watch out for the knuck  
els  
I ain't fucking with you clowns, fuck around McDonalds  
Do you get serve ery day just like McDonalds  
Fording, then she Brazilian, is what is really in  
Probably really get, gotta give a try, no try to stag a trillion  
Sound like on my city so they fuck all your opinion

They make fall back, you know I brought the pennies in  
Hit the cando, I call it a cando minium  
Running from police in my timberlands

Can't you hear a nigga hush, then you gotta get a verse  
20G shit, pure cocaine in the bitch so we mind to not stop  
Celebrate your mix  
Hold it down hunnits with ain't feel  
So you know I gotta a fear, issue box  
Boy you can't fool me with that blow  
But you know that we will rewind  
(I'mma dope boy nigga)  
Hunnit on roaber banz  
I'm spinning and blow up  
I'm putting to fuck it and I'm make it blow up  
Jump, ooh jump, call it The Jump man  
Thou man gotta plug, pall in the game yeah  
Boy you must be tripping, get that shit out the truck man  
Vacume to the map, nigga you did the tell now  
Boy you know that OG can't come throw the mil  
Keep it real playing, you keeping the male man  
Keep switching under, cut the nigga are tell man  
And be playing with the words so I'm don't even scared man  
Stay roll for cuz you might need the bail man  
Started with a ball and now you come with the bail man  
Dog time, I'm in the ball, try to make the old big jump  
But it came that straight lass shit  
So you know the trap drops
