Out The Mud

Kap G

(SephGotTheWaves)
Ain't no way around it
Haha
Ayy, hate it or love it, you know I'm ten toes down
Show don't stop

Yeah, I was on my ass, I made a plan, I got it out the mud
My heart different, I been crossed, but that's just how I love
They try to grab you by the ankles when you climbin' up
And my emotions runnin' deep, I tried to top it up
I put these Nikes on my feet and watch me run it up
And please don't ask me why I ain't speak 'cause I don't fuck with her
I be the same down than if I'm a hundred up
Should've seen the cash in her face when she rung it up

And if you jumpin' crew to crew, you need to double Dutch
I like to punch it when I rap like a uppercut
When that money hit my account, I almost bust a nut
I been knew that I was destined, I don't believe in luck
We ain't goin' without a fight, we goin' OT
I ain't leavin' without my ice, I'm goin' Rollie
She said, "Forever, you my heart," that what she told me
I would've listened if I said like the old me
Flash diamonds, so I put it in her old bleaks
And she addicted to this dick, she 'bout to OD
I hear a lot of talk about me, they don't know me
The same ones that be talkin', talk to police
And they got nipped on his own block
That's why I keep it on me, gotta keep my own block (Grrah)
This thinkin' lately, man, it really got me zoned out
Police killin' us left and right with our phones out
I'm tryna get it, I been stackin' up the backends
I'm too low-key, I play the background like some ad-libs
I'm probably coolin' in the cut with a bad bitch
She classy, bougie, ratchet, savage

Yeah, I was on my ass, I made a plan, I got it out the mud
My heart different, I been crossed, but that's just how I love
They try to grab you by the ankles when you climbin' up
And my emotions runnin' deep, I tried to top it up
I put these Nikes on my feet and watch me run it up
And please don't ask me why I ain't speak 'cause I don't fuck with her
I be the same down than if I'm a hundred up
Should've seen the cash in her face when she rung it up

Ain't no way around it, I'ma keep on countin'
Ain't no way around it, they gon' keep on daubtin'
Ain't no way around it, yeah (Ain't no way around it)
Ain't no way around it (Ain't no way around it)
We gon' hit some roadblocks (Roadblocks)
Maybe hit a couple speed bumps (Speed bumps)
You gonna fall a whole lot, but that ain't how the show stop
Gotta roll your sleeves up (Gotta roll your sleeves up)

Yeah, I was on my ass, I made a plan, I got it out the mud
My heart different, I been crossed, but that's just how I love
They try to grab you by the ankles when you climbin' up

And my emotions runnin' deep, I tried to top it up
I put these Nikes on my feet and watch me run it up
And please don't ask me why I ain't speak 'cause I don't fuck with her
I be the same down than if I'm a hundred up
Should've seen the cash in her face when she rung it up
