

# Scrape The Plate

Kap G

I went and got it on my own  
I put my feelings in my song  
Been having demons way too long  
It ain't easy but my mind stayed strong  
Sippin' cassa with me cassa  
Shit they tried us but it's behind us  
They try to hold us and then control us  
Man that shit just turn me to a vulture

I made a way, how could you hate?  
You can't relate, I check your faith  
Watch out for snakes, you might get ate  
I scrape the plate, I scrape the plate  
I scrape the plate, I scrape the plate  
If you in my way, then you gotta escape  
I scrape the plate, I scrape the plate  
If you in my way, then you gotta escape

You know, got this shit out the mud  
Got this shit for nothin'

Back to the basics  
See how far I can take it  
They just mad that I made it  
I'm dancing for greatness  
Got no time to be waiting  
'Bout to go super saiyan  
Got a gun in my hand  
But ain't doing no playin'  
And I heard what they said  
That ain't making you brave  
Live my life on the edge  
Plus I got one in the head  
Locked in like a dread  
Scrape the plate yeah I'm fed  
Apartments with the press  
Apply me with no press

Congratulations  
Congratulations

I scrape the plate, I scrape the plate  
If you in my way, then you gotta escape  
I scrape the plate, I scrape the plate  
If you in my way, then you gotta escape
