

## Wrong Reasons

Kap G

We in love for the wrong reasons  
If I can't have you can't nobody else either  
We in love for the wrong reasons  
Know we try to hide it but everybody see it  
I know I know I know  
Might cause more harm if we hold on  
I know I know I know  
But in my arms where you belong

Where you belong baby  
You know it's on baby  
You got my heart racing  
And when I look into your eyes it's like I'm star gazing  
I get distracted from the world you know it's all crazy  
I know you gotta do what's right  
But don't take none of they advice  
They won't understand no loving like ours cuz all they sees the fights  
So tell me what's the move, tell me what it do  
I just want it all yeah I just want you  
But don't waste my time if it's through then it's through  
But its hard for me to see me without me and you  
I know...

We in love for the wrong reasons  
If I can't have you can't nobody else either  
We in love for the wrong reasons  
Know we try to hide it but everybody see it  
I know I know I know  
Might cause more harm if we hold on  
I know I know I know  
But in my arms where you belong

How we in love for the wrong reasons  
Chanel bags Celine tags all season  
I got big booty strippers yup in all regions  
And you got athletes flying you out on off seasons  
I guess we both even  
Yeah you toxic but I guess I like it  
I don't like the idea of you not being my bitch  
They you not for me my friends tried to warn me  
There you go hiding me on you instagram story  
Trips to Aruba in the mist of rumors  
Last week I heard you had dinner with Maluma  
But this shit be humor it's cap to me  
Like a boomerang you always coming back to me

We in love for the wrong reasons  
If I can't have you can't nobody else either  
We in love for the wrong reasons  
Know we try to hide it but everybody see it  
I know I know I know  
Might cause more harm if we hold on  
I know I know I know  
But in my arms where you belong
