

## C.O.D

Kardinal Offishall

They go, they go  
Came from the hood ain't never sold blow (no)  
Get it so fast that it look slo-mo  
Even though I'm on your telly I ain't doing it for show (uh uh)  
Here I is, here I is  
Shooters put the Glock down, you know what it is  
Take your trap money, throw parties for the kids  
Spread a little love, give them a reason to live (ey)  
Look momma we made it, she said no you blessed but the man dem still sell do  
pe  
This a win-lose, double-edged sword thing  
Damned if you do, damned when you get more things  
Damned if you don't, damned even if you try  
So I give a damn but I put a finger to the sky  
Lured to the left, lured to the right  
Add another finger hold that bitch to the light

All I ever wanted, was to get that money  
And now that I got it (got it)  
The whole world look funny, oh well  
I just pour a little liquor for the homies who ain't here tonight  
Two shots, one love for my people tryna get it right

On me, got a lot problems  
Nothin' that one shot of liquor can't solve man  
On me, got a lot problems  
Nothin' that one shot of liquor can't solve them  
Man, COD, COD, COD  
I need to get that COD, COD, COD  
I need to get that

I don't care, I don't care  
I hear all the fuckery but keep it over there  
Cameras off, still a rude boy I swear  
Rappers getting in trouble with chicks in their ear  
Man get hype start to feel themselves  
Tell people keep it real, them then real themselves  
You can see them try to live a bad man life  
When they go to jail they become a bad man wife  
Bad man keeper keep, bad man friends, if you want a bad man, sell til bad ma  
n ends  
Me? I ain't study in the bad man trends but a bad man asks you a why you  
All I ever wanted, was to get that money  
And now that I got it (got it)  
The whole world look funny, oh well  
I just pour a little liquor for the homies who ain't here tonight  
Two shots, one love for my people tryna get it right

On me, got a lot problems  
Nothin' that one shot of liquor can't solve man

You can hear him laughing with Jesus on the block  
You selling you soul trying to make another knot  
You the man right now but you temporary hot  
Fire works bust when the squad gets working'  
Chicks spend money when the broads get twerkin'  
Rude boy Kardinal still the same person  
Power to the people till jock close the curtains

All I ever wanted, was to get that money  
And now that I got it (got it)  
The whole world look funny, oh well  
I just pour a little liquor for the homies who ain't here tonight
