

Turn It Up

Kardinal Offishall

Turn it up
Let it play
I wanna hear that sound til my windows break yea
Turn it up
Let it play
I wanna hear that sound til my windows break yea

Let me hear you say turn it up turn it up
I need to hear that thing when I'm rollong up
That system ain't just cold enough
And then them niggas sweet fizz ain't holdin' up
I need to hear that knock like hello
I am ready for the summer like a gemini get it!
Poobah the name is yah your boy did it
When you see that fire I lit it
I make that party rock perty rock!
At the very minimum I make 30 rock
Got a time like tina phasin' the party
Let the bass control your body
And let me control what you're thinking
You know it's good for you, put down your drinking
Get up, stand up, hands up
It's time to rock so get to it
