

Walk With Me

Karel Gott

Walk with me
and love will walk beside us
walk with me
with faith and hope to guide us
when the dark clouds
gather all around you
any you think
you're all alone
just believe and say a prayer
and you will never walk alone

So walk with me
through fair or stormy weather
walk with me
let's face the world together
happiness waits with open arms
around the band and
journeys end
so say you believe
and walk with me

Walk with me
and hold your head up high
soon you'll see
the rainbow in the sky
happiness waits with open arms
around the band and
journeys end
so say you believe
and walk with me
