

# I'm Gonna Find You

Karel Zich

I know you always wanna fly  
A little unknown same as I  
A little crazy for a try  
Weeks and years keep going by  
Sometimes you're down and sometimes high  
I'm gonna find you - don't you cry

Oh, I'm gonna find you  
Every day I'm closer  
Never stop trying  
Never gave up, no sir  
I just know you were meant for me  
Find you tomorrow  
Find you little later  
What is your sorrow  
Our love is greater  
Greater than our chance was meant to be  
Oh, my love

I know that you are just as fine  
As all the girls and friends of mine  
Who got lost somewhere in the past  
Now I don't care if they are standing in the line  
It they're five or fifty nine  
You're not my first one - but you're my last

Oh, I'm gonna find you  
Every day I'm closer  
Never stop trying  
Never gave up, no sir  
I just know you were meant for me  
Find you tomorrow  
Find you little later  
What is your sorrow  
Our love is greater  
Greater than our chance was meant to be  
Oh, my love

I know you always wanna fly  
A little unknown - same as I  
A little crazy - both of us  
I'm here, ready to take you to the sky  
The very moment you go by  
In some old worn-out Greyhound bus

Oh, I'm gonna find you  
Every day I'm closer  
Never stop trying  
Never gave up, no sir  
I just know you were meant for me  
Find you tomorrow  
Find you little later  
What is your sorrow  
Our love is greater  
Greater than our chance was meant to be  
Oh, my love
