

Keep Livin' On

Karel Zich

It's a pity I'm not with you
I lost my way somewhere down the line
Anyway, I got your photograph
And I really hope that you got mine

Don't you try to find me, darling
You won't guess what I keep roamin' for
When a part of life will pass you by
You will hear me knockin' on your door

I can keep livin'on
Only when I got my special ways
There's no way tellin' me
What am I to tell you face to face

Somewhere far away I try
To catch the train that's headin' for the world
Don't remind me what I promised you
I confess I forgot every word

It's another thing that's countin'
I may meet some childhood-hero friend
Don't you try to keep space of me
No one there can tell you where I went

I can keep livin'on
Only when I got my special ways
There's no way tellin' me
What am I to tell you face to face

I admit that I'm not easy
It ain't easy livin' by my side
Just one thing is clear to both of us
I kept losin' anytime I tried

One day we may reach the point
Where we kept meetin' somewhere far behind
Then you'll know that wherever I go
I just go there with you on my mind

I can keep livin'on
Only when I got my special ways
There's no way tellin' me
What am I to tell you face to face
