

# Lovelines

Karen Carpenter

Darling, you've got me falling  
'Cause you're the only one whoever does it right  
Every night I'm dreaming, about the feeling  
You know I can't explain what's going down  
My head keeps spinning round

You're on my lovelines  
And that's all right with me  
Just give good times  
The way that love should be  
Baby, you're the warm glow  
That helps me through the day  
And, darling, I know  
I'll always feel this way

'Cause lovelines never fade  
Lovelines don't fade, my love

Baby, come on and take me  
Into that wonderland where only lovers go  
Heaven knows I need you, I want to feel you  
I got that strange sensation deep inside  
That only you can satisfy

You're on my lovelines  
And that's all right with me  
Just give good times  
The way that love should be  
Baby, you're the warm glow  
That helps me through the day  
And, darling, I know  
I'll always feel this way

So give me loving like I've never know before  
Make me cry out loud for more, my love

You're on my lovelines  
And that's all right with me  
Just give good times  
The way that love should be  
Baby, you're the warm glow  
That helps me through the day  
And, darling, I know  
I'll always feel this way

'Cause you're right on my lovelines  
And that's all right with me  
Just give good times  
The way that love should be  
Baby, you're the warm glow  
That helps me through the day  
And, darling, I know  
I'll always feel this way

'Cause you're right on my lovelines  
And that's all right with me  
Just give good times

The way that love should be  
Baby, you're the warm glow  
That helps me through the day  
And, darling, I know  
I'll always feel this way
