

# Only One

Karen Harding

I want this  
Don't wanna take a minute  
To be cautious  
If I'm honest  
You got me  
Dizzy from the motion of your heartbeat  
On my body

I'm caught up in the night  
It's too early to go home  
Find a way to stay forever  
Cause I feel like we belong  
We could be anywhere  
It doesn't matter  
What we do  
I can't help  
But draw myself to you

Let me be the  
Only one, like you love no one  
Only one, let me be your  
Only one, like you love no one  
Only one, let me be your  
Only one

I can't lie  
Feels good on my skin just like the daylight  
After a long night  
I'm folding  
Watching you undressing my emotions  
With devotion

I'm caught up in the night  
It's too early to go home  
Find a way to stay forever  
Cause I feel like we belong  
We could be anywhere  
It doesn't matter  
What we do  
I can't help  
But draw myself to you

Let me be the  
Only one, like you love no one  
Only one, let me be your  
Only one, like you love no one  
Only one, let me be your  
Only one

Say that I'm the only one  
Like you've loved no one  
Let me be your only one  
I'm the only one  
Like you love no one  
The moon and stars are gone  
Let me be your  
Let me be your

Let me be the  
Only one, like you love no one  
Only one, let me be your  
Only one, like you love no one  
Only one, let me be your  
Only one
