

Runaway

Karen Harding

My history is love facing war
Every promise, every lie I've heard before
Don't rain your love down on me
Need space, gotta let me breathe

But deep down inside
I know it's my pride
That's the way I've always been
Love is hidden to find
I need you to try

Cause' I always wanna runaway from love
Something 'bout you changed my mind
So I ain't gonna runaway from love
I know it won't hurt this time
You got me saying

Can't run away, can't run away
Can't run away from love this time

How come I draw you in with what I say
Other fade in time and yet you wanna stay
Excuses are why I had to leave
Mistakes haunting me

But deep down inside
I know it's my pride
That's the way I've always been
Love is hidden to find
I need you to try

Cause' I always wanna runaway from love
Something 'bout you changed my mind
So I ain't gonna runaway from love
I know it won't hurt this time
You got me saying

Can't run away, can't run away
Can't run away from love this time

Cause' I always wanna runaway from love
Something 'bout you changed my mind
So I ain't gonna runaway from love
I know it won't hurt this time
You got me saying

Can't run away from love

Cause' I always wanna runaway from love
Something 'bout you changed my mind
So I ain't gonna runaway from love
I know it won't hurt this time
You got me saying

Can't run away, can't run away
Can't run away from love this time
