

# Take Me Somewhere

Karen Harding

Been before  
Been before  
Been before  
Take me somewhere I've never

Lately I've been getting bored of the usual  
Doubting if the feelings are mutual  
Sometimes I don't think you even care at all  
Do you care at all?

Oh baby, I've been getting tired of the same routine  
Having you on time no longer works for me  
Why don't we switch it up? Some diversity  
For you and me

'Cause I've been around the world  
And I can't get no joy  
I'm that ambitious girl  
And you're a lazy boy  
You always give me less  
When I'm in need of more  
Let's put you to the test  
Take me somewhere I've never  
Been before, been before  
Been before, take me somewhere I've never

Been before  
Been before  
Take me somewhere I've never  
Been before  
Been before  
Take me somewhere I've never

It's crazy how long we've been happier just being the same  
No need for a challenge, not in need for a change  
So much familiarity can mess with your brain  
Can mess with your brain

Oh, baby, I've been getting tired of the same routine  
Being second best doesn't work for me  
Why don't we switch it up? Some diversity  
For you and me

'Cause I've been around the world  
And I can't get no joy  
I'm that ambitious girl  
And you're a lazy boy  
You always give me less  
When I'm in need of more  
Let's put you to the test  
Take me somewhere I've never  
Been before, been before  
Been before, take me somewhere I've never

Been before  
Been before  
Take me somewhere I've never

Been before  
Been before  
Take me somewhere I've never

'Cause I've been around the world  
And I can't get no joy  
I'm that ambitious girl  
And you're a lazy boy  
You always give me less  
When I'm in need of more  
Let's put you to the test  
Take me somewhere I've never  
Been before

Take me somewhere I've never  
Been before
