

Wide Awake

Karen Harding

I wanna dance the night away-way-way

I've been lost
I just seem to fill my time with loneliness
Loneliness
But you and I have something here in common
That we need tonight
We need tonight

I close my eyes, and I feel you inside my-
I feel you inside my mind
Yeah, you travel deeper
Instantly come alive

I wanna dance the night away
Away here with you
I wanna dance the night away
As long as I'm here with you
I'm wide awake
I'm wide awake

I can't sleep
I found a new distraction here in you and me
You and me
We're flying now
High upon these feelings, and we won't look down
We won't look down

I close my eyes, and I feel you inside my-
I feel you inside my mind
Yeah, you travel deeper
Instantly come alive

I wanna dance the night away
Away here with you
I wanna dance the night away
As long as I'm here with you
I'm wide awake
I'm wide awake

Boy, it feels so right
You got me in a hyper state of mind
And I don't want the moment here to stop
'Cause I can't get enough
No, I can't get enough

I wanna dance the night away
Away here with you
I wanna dance the night away
As long as I'm here with you
I'm wide awake
I'm wide awake

I wanna dance the night away
Here with you
I'm wide awake
