

Our souls are born for each other
And they tellin' us to hold on
Be strong, for us
I say a prayer every day n night
But I break down on my knees
I'm crying, need you

Baby, baby, baby, take me
To a place we could hide away
Nobody know where we gotta go
My love, run away, California Soul
Baby, baby, baby, take me
To a place we could hide away
Nobody know where we gotta go
My love, run away, California Soul

Hoooh hey yeah run away, run away baby
Hoooh hey yeah run away California

Love you like a summer night
Wanna dance witchu in the sky
Take time, with you
\$10 dollars, OK
We gone ride buses n trains
N we'll be alright
Cus you're by my side

Baby, baby, baby, take me
To a place we could hide away
Nobody know where we gotta go
My love, run away, California Soul
Baby, baby, baby, take me
To a place we could hide away
Nobody know where we gotta go
My love, run away, California Soul

Hoooh hey yeah run away, run away baby
Hoooh hey yeah run away California

Baby, baby, baby, take me
To a place we could hide away
Nobody know where we gotta go
My love, run away, California Soul
Baby, baby, baby, take me
To a place we could hide away
Nobody know where we gotta go
My love, run away, California Soul

Our souls are born for each other
And they tellin' us to hold on
Be strong, for us
I say a prayer every day n night
But I break down on my knees
I'm crying, need you
